

ambilux

A dual purpose lamp with
storage options.

Objectives.

Upcycling

Giving life to old materials could help give character to my design.

Storage space

I wanted to provide storage space for a device, wallet, or keys.

Dual functionality

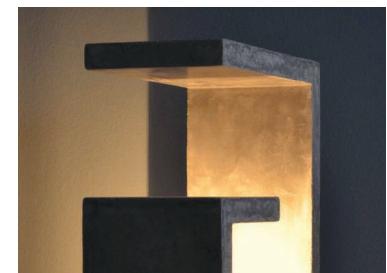

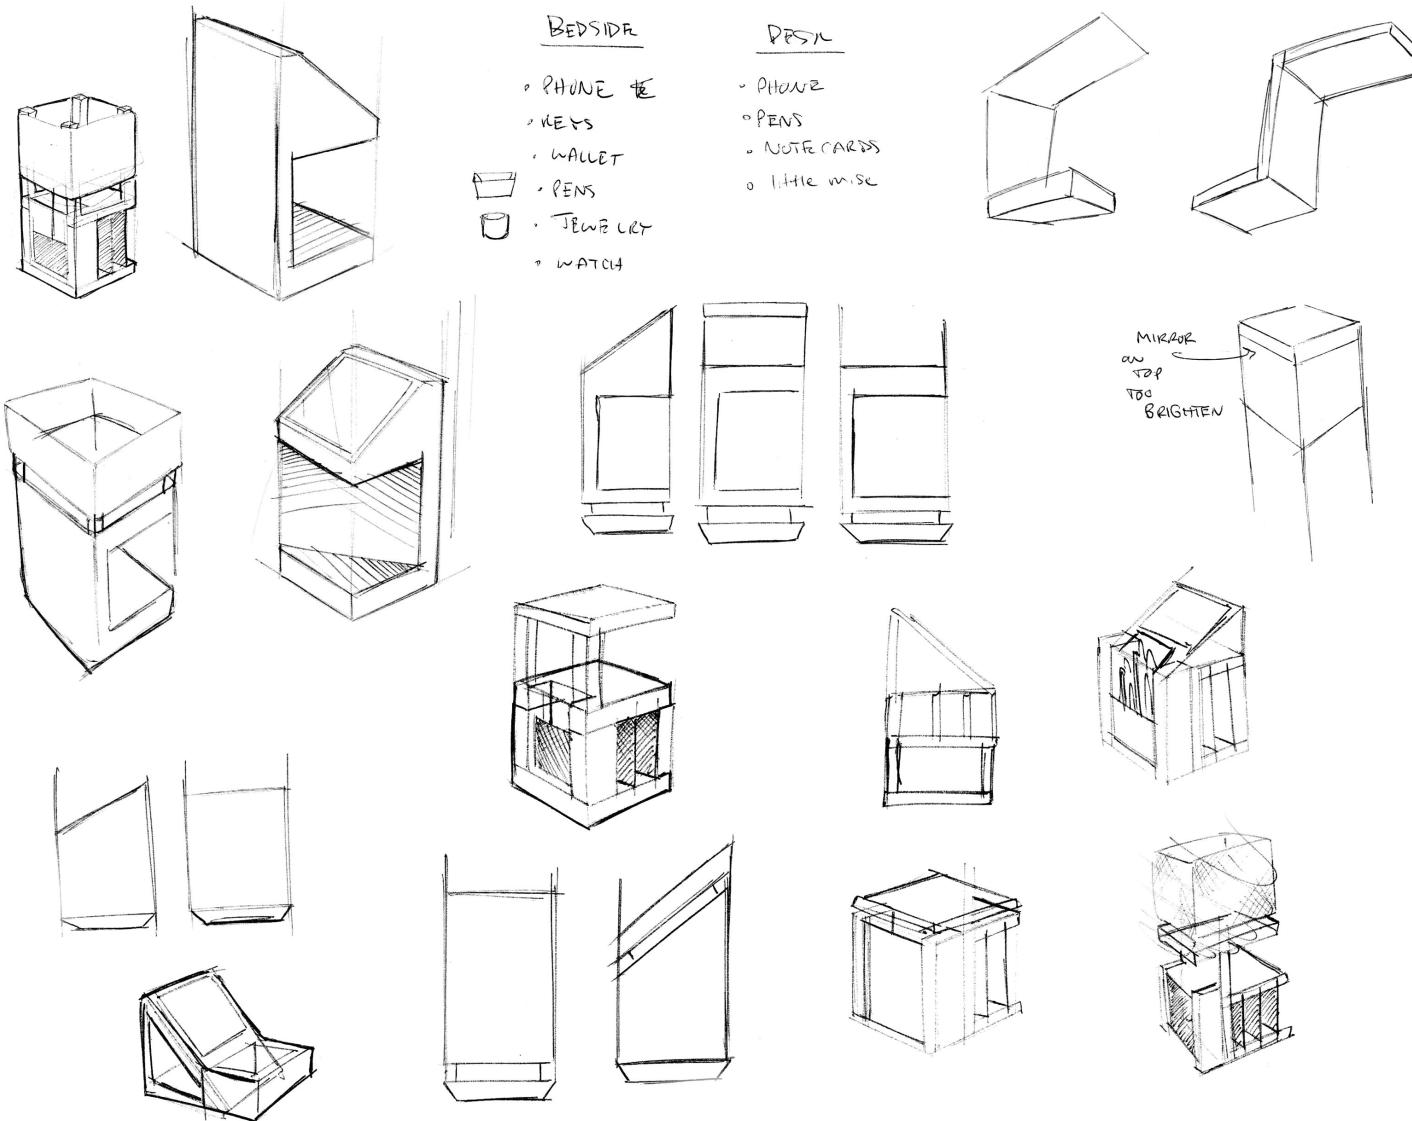

I aimed to design for multiple purposes in the simplest way possible.

Three Main Goals

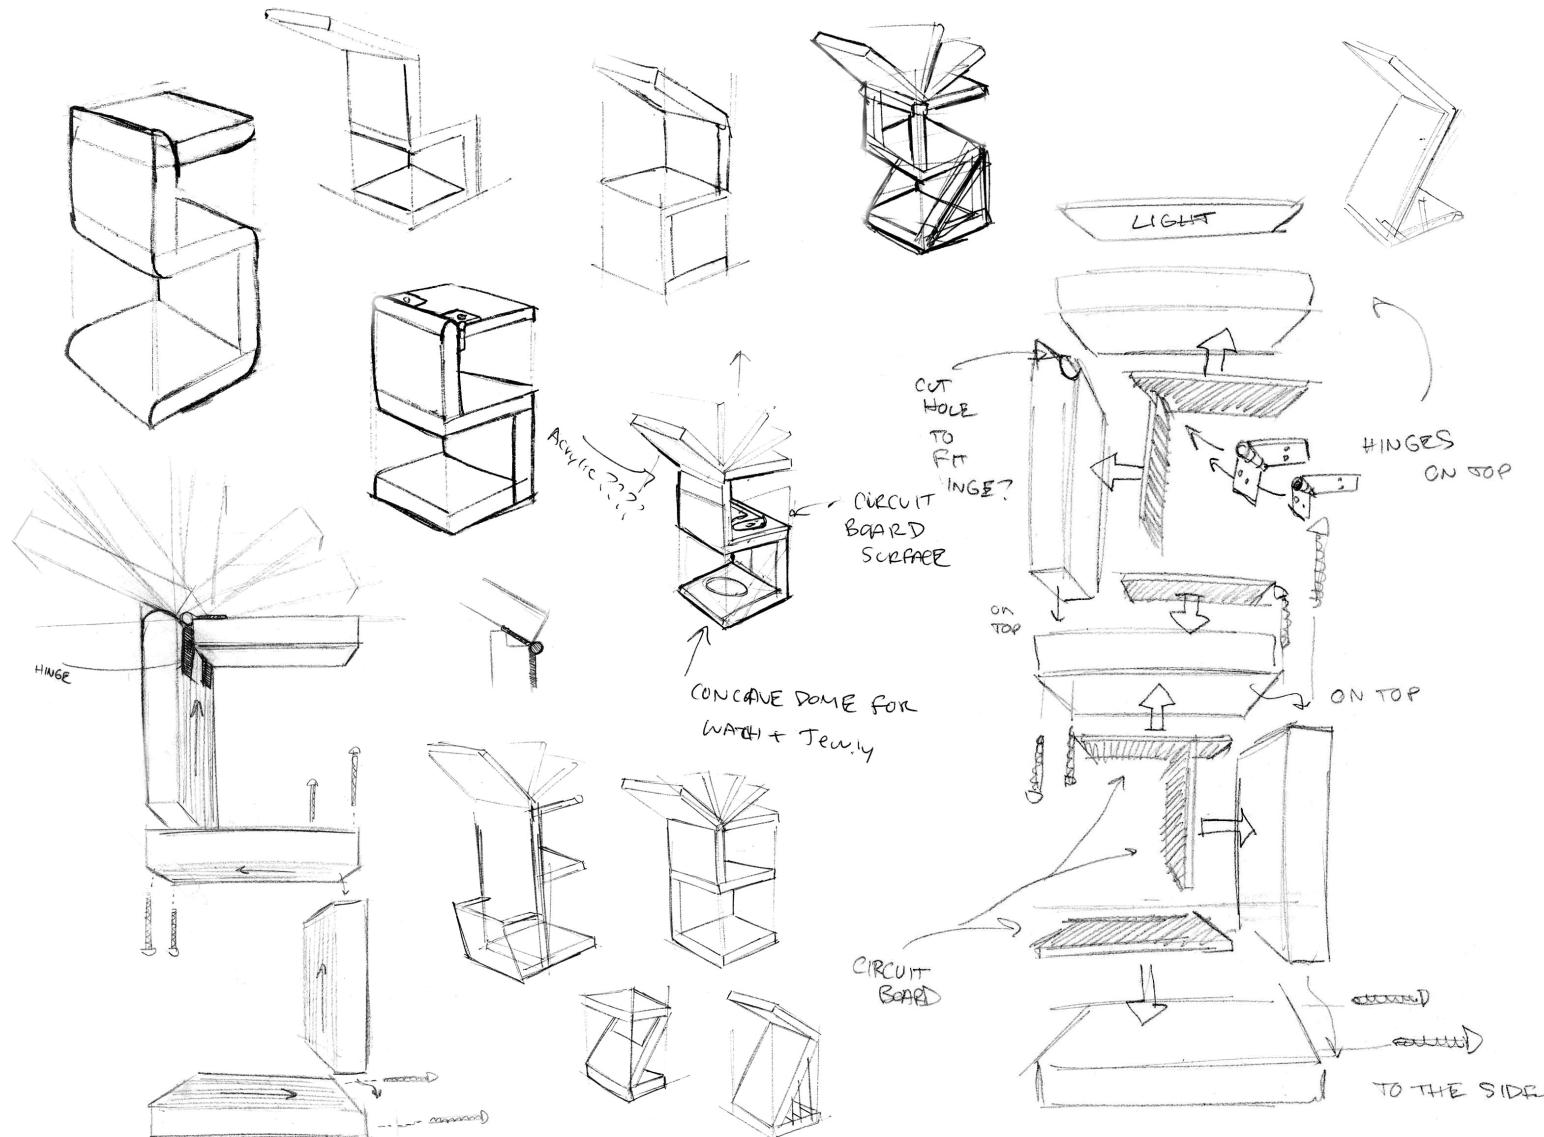

Initial Ideas.

I wanted a geometric form inspired by international style architecture, while upcycling materials and providing storage space.

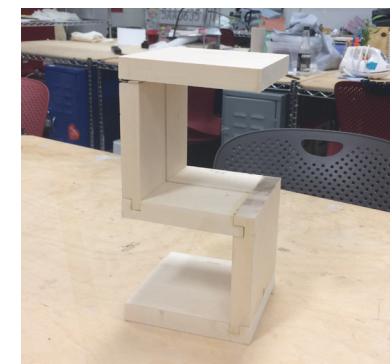

Refinement.

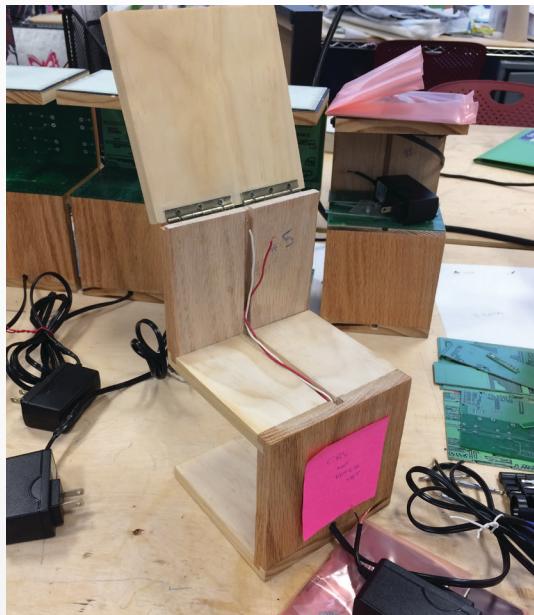

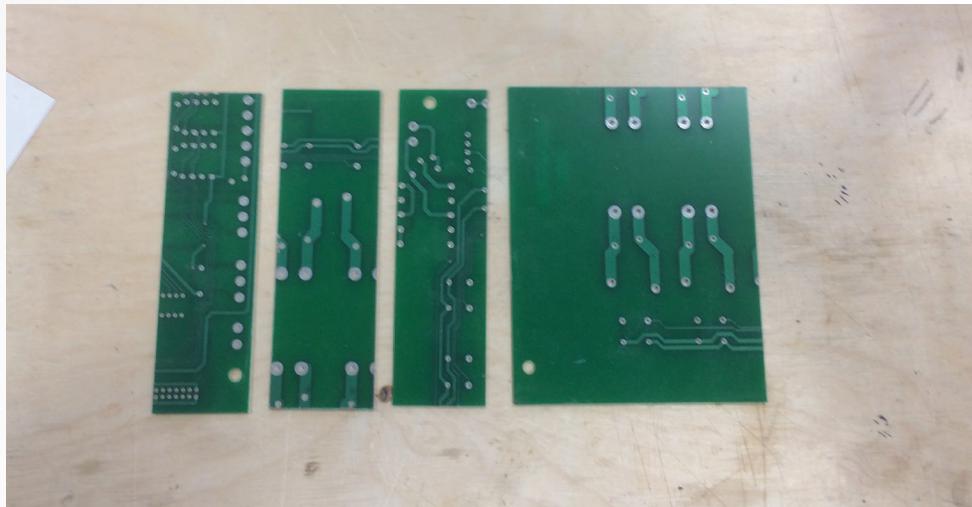

I couldn't decide between a desk lamp or a normal ambient light, so I attempted to do both.

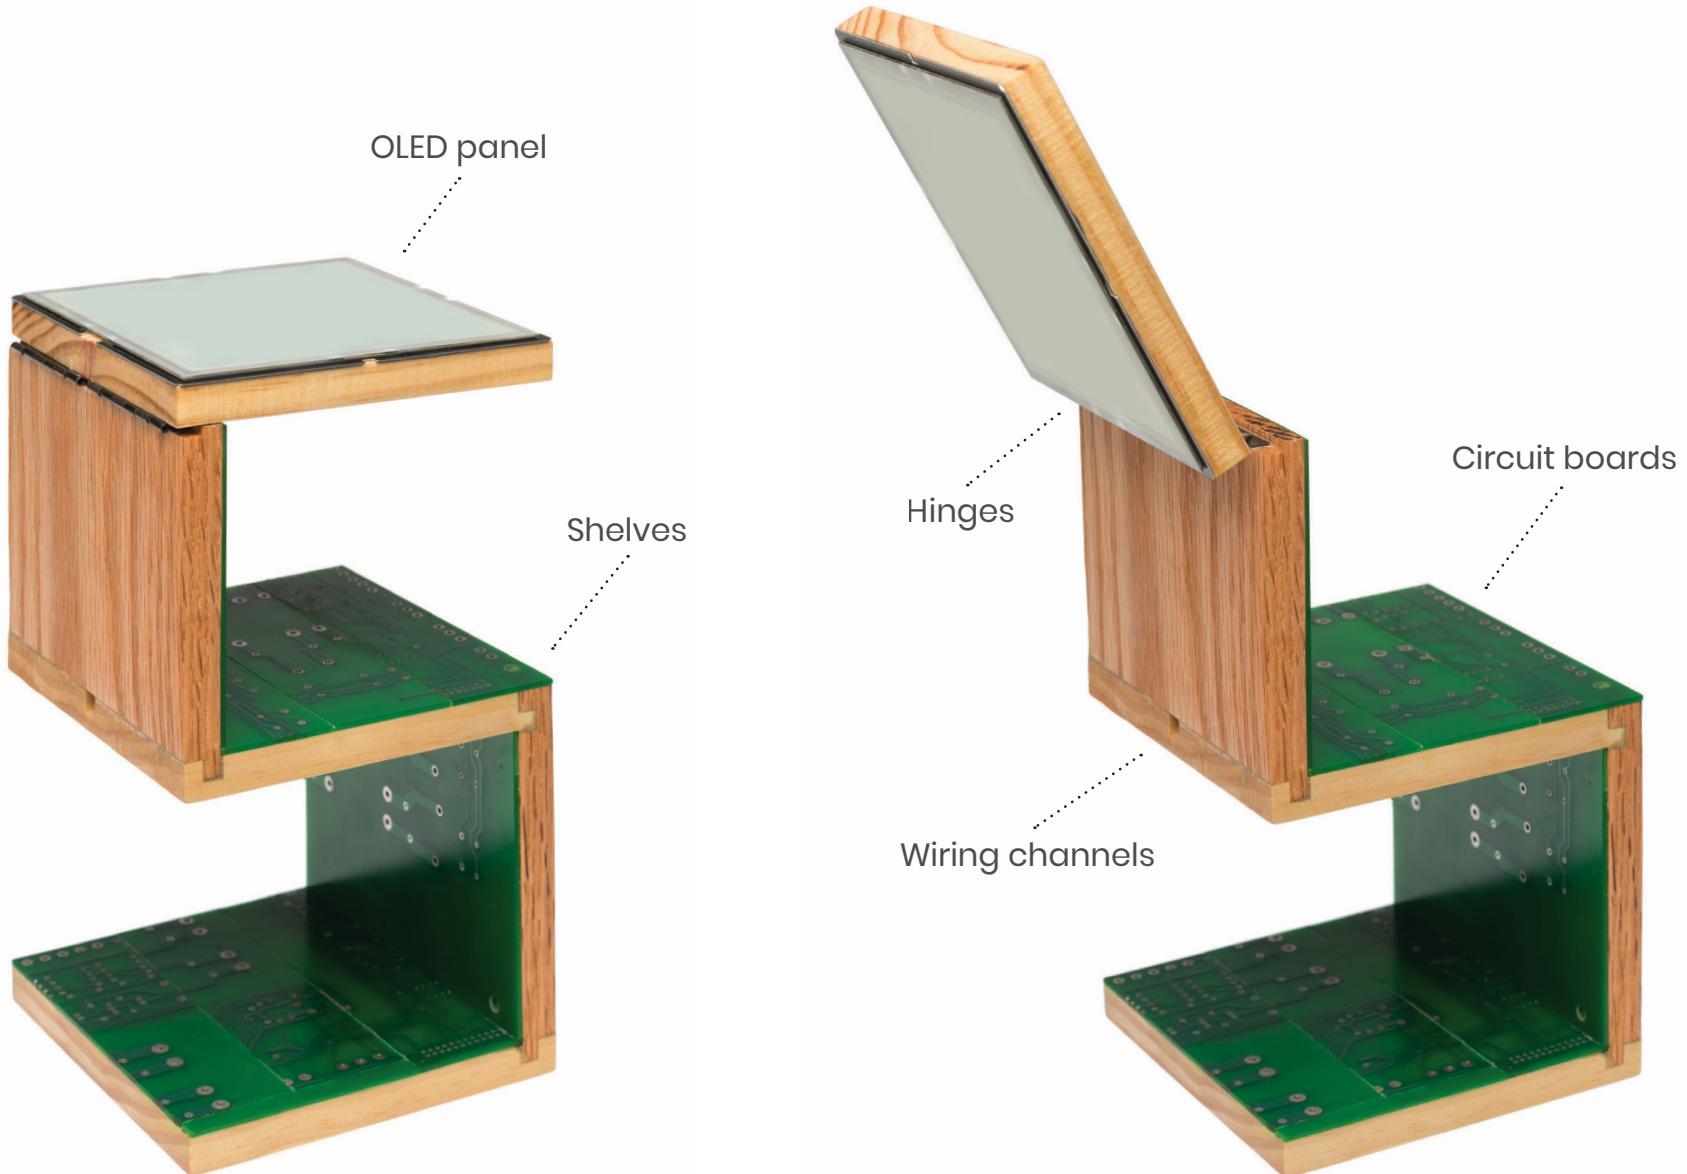

Stop hinges were used to achieve a proper angle.

Production.

Features.

ambi_ilux

A dual purpose lamp, functioning as a desk light or ambient bedside lamp, that addresses your storage needs.
